

CL7205A

9dBi RFID Antenna

Features

-  Low profile with high gain, reading distance range up to 15m
-  Different mounting methods /connector types for match various applications
-  Maximum efficiency and performance across the entire frequency band
-  Seamlessly compatible with different brand RFID readers
-  Widely used in parking, warehouse, forklift, production line, container yard, luggage carousel, file cabinet, smart shelf and so on

Model No.	CL7205A
Dimensions(L*W*H)	290*290*55mm
Net. Weight	0.6KG
Polarization	Circular Polarization
Far-Field Gain	9 dBi
Beamwidth	70° x 70°
Frequency Range	865~868MHz- 902~928MHz / customizable
Connector	SMA-Male
Protection Level	IP66
