

CL7205M

12dBi RFID Antenna

Features

-  Low profile with high gain, reading distance range up to 20m
-  Different mounting methods /connector types for match various applications
-  Maximum efficiency and performance across the entire frequency band
-  Seamlessly compatible with different brand RFID readers
-  Widely used in ITS / ETC, refrigerator ,smart shelf, access controller,retail shop, file cabinet and so on

Model No.	CL7205M
Dimensions(L*W*H)	445*445*40mm
Net. Weight	1.9KG
Polarization	Circular Polarization
Far-Field Gain	12 dBi
Beamwidth	45° x 45°
Frequency Range	865~868MHz- 902~928MHz / customizable
Connector	N-Female
Protection Level	IP66
