

CL7206D3

1-port Reader Module

Features

-  ISO 18000-6C/6B, EPC Global C1G2 /C2G2 supportable UHF RFID transceiver
-  Provide corresponding development board
-  Different developing languages SDK meet different developer needs
-  Fully interoperable in different global regulatory environments such as US, EU, GB
-  Widely used in professional split-type Fixed RFID Reader/integrated RFID Reader / RFID Tag Writer integration

Model No.	CL7206D3
Chip	Phychips PR9200
Dimensions(L*W*H)	28mmx25mmx3mm
Power Supply	DC3.3V
RF Conntector	1*Surface mount solder
Protocol	6B,6C / EPC C1G2
Frequency	865-928MHz Adjustable
Output Power	18 ~ 28dBm
Interface Connector	Surface mount solder
Communication Interface	TTL UART Interface
